EUMEDGRID-Support & EUMEDCONNECT2 Projects

Grid

EU

Federico Ruggieri (EUMEDGRID-Support Project Director) e-IRG Workshop Madrid 17 JUne 2010

Outline

- eInfrastructures introduction
- EUMEDCONNECT2 (David West)
- EUMEDGRID-Support
 - Project data & Partners
 - Objectives & strategies
 - Main activities planned
 - Next events
- Conclusions

The elnfrastructures pile

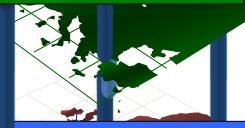

• The creation of the elnfrastructure is a key objective of the **European Research Area**

EUMEDGrid

- The top level is made up by Data Repositories, User Applications and Virtual Communities exploiting the **electronic science (eScience)**
- The Research Grid infrastructure provides a distributed environment for sharing computing power, storage, instruments and databases through the appropriate software (middleware) in order to solve complex application problems
 - EGEE/EGI, EUMEDGRID-Support etc.
- The Research Network infrastructure provides fast interconnection and advanced services among Research and Education institutes of different countries'
 - GEANT3, EUMEDCONNECT2, etc.

e-Science Collaborations

Grid Infrastructure

Network Infrastructure

EUMEDCONNECT2 Update

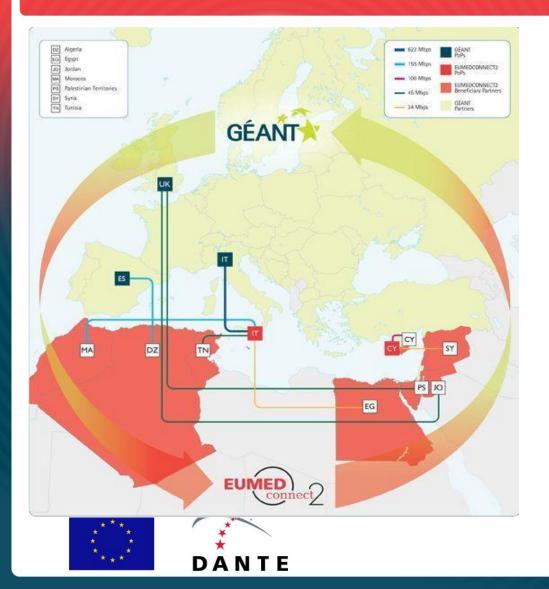

David West, DANTE

Network Update

Connects:

- 7 MED countries
- •700 academic and research sites
- •2m + users
- •Still 34 155 Mbps capacities
- Telco markets are still largely uncompetitive

•EUMEDCONNECT provides the only R&E links to GEANT

Network Usage

- Circuits well used
- EUMEDGRID applications
- Wide range of FP6/FP7 projects
- LHC analysis in Morocco
- E-health and environmental programmes increasing
- LinkSCEEM2 requires connectivity between Cyprus supercomputing and SESAME

EUMEDCONNECT – essential EC support

• EUMEDCONNECT 2004 – 2007

ΤF

- EC funding 10M Euro, 80% share of costs
- EUMEDCONNECT2 Q3 2008 Q1 2011
 - EC funding 4M Euro, 54% share of costs
- No EUMDCONNECT3 support yet confirmed (DG RELEX/AIDCO decision due July 2010)
 - EC funding needed 2011 2014, around 6M Euro, 30 40 % share of costs

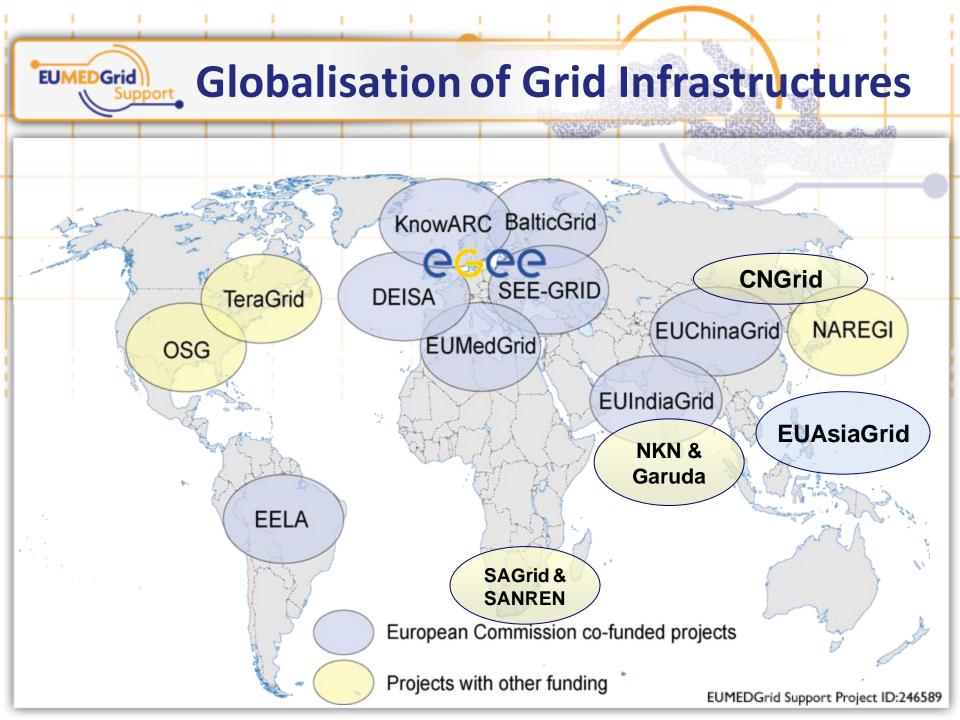

Rataionale for further EC funding

- No alternative R&E connectivity to connect MED and EU users
- Growing number of user projects depend on EUMEDCONNECT
- Finally moves underway to develop regional self-sufficiency:
 - Formation of Arab States Research and Education Network (ASREN) just announced: best chance for sustainability
 - Moves to extend regional connectivity to other countries in the region, including the Gulf
 - EC funding needed to support transition to ASREN
- E-IRG support for further EC funding welcome!

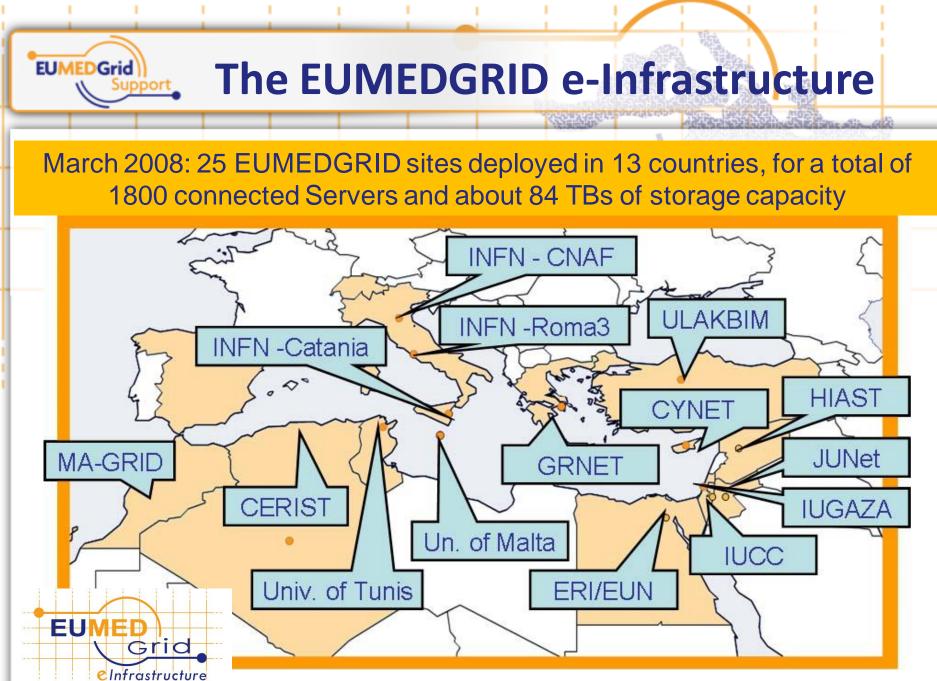

EUMEDGrid

Project Status

- Support Action co-funded by European Commission under: Capacities specific program - Research Infrastructures - FP7-INFRASTRUCTURES-2009-1
- Project ID 246589
- Duration: 24 months
- Start: 1st January 2010
- Budget (EU contribution): 740 k€
- Budget (Total): 867 k€

EUMEDGrid Support Project ID:246589

Objectives & Strategic Lines

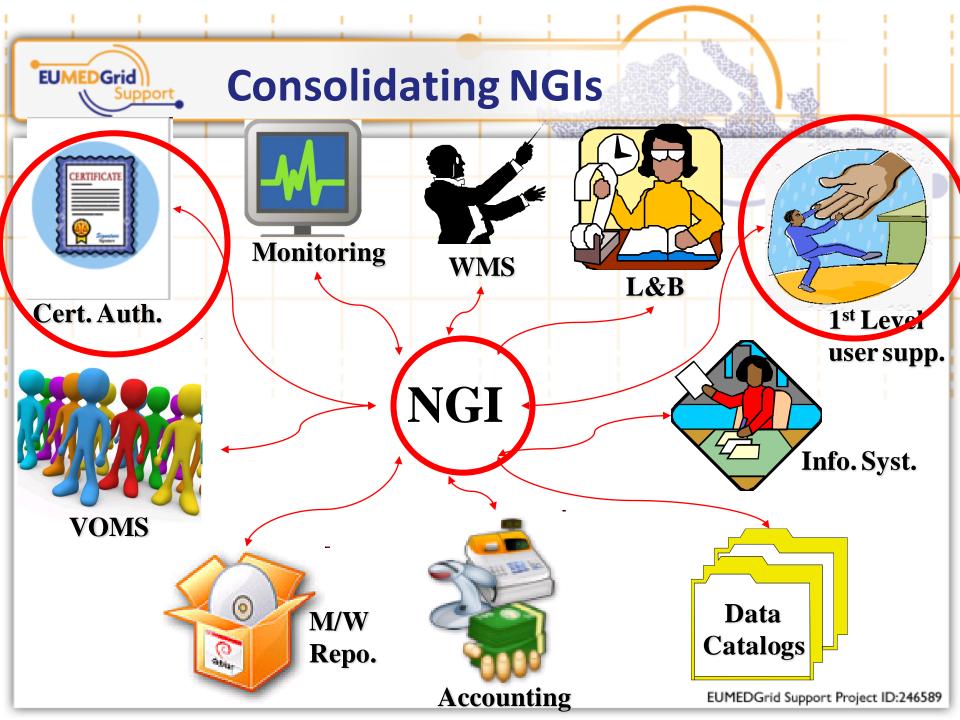

- Support the consolidation and expansion of the EUMEDGRID Infrastructure with a special emphasis on sustainability.
- Top-Down approach:

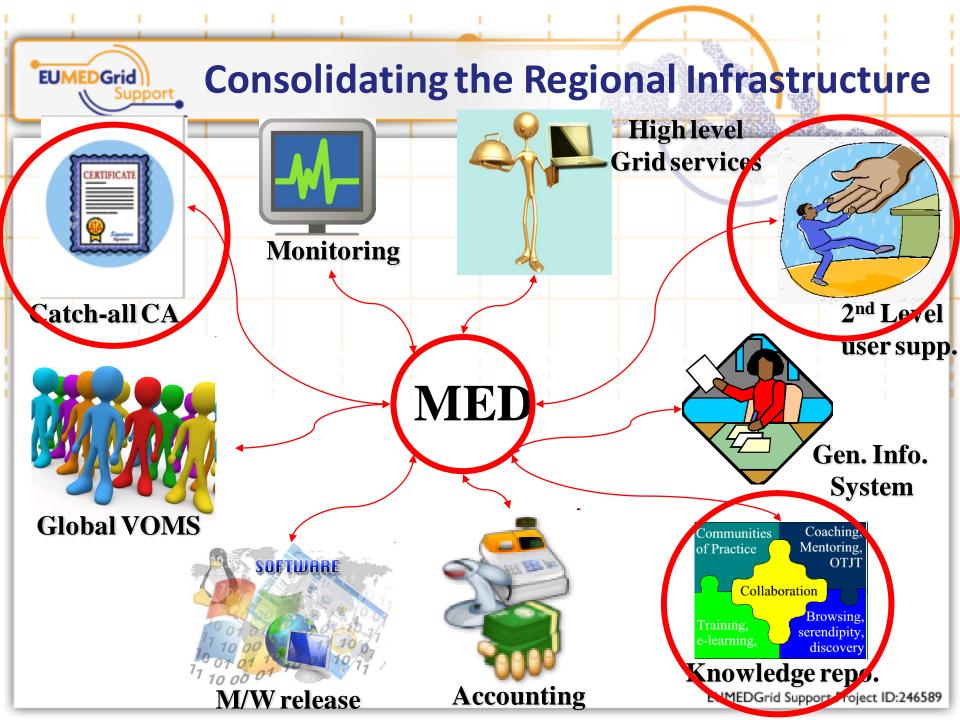

- High Level Policy Dissemination
- Involve institutions and ministries to include eInfrastructures in the political agenda
- Bottom-Up approach:
 - Create a Two Levels network of Competence Centres
 - Involve new user communities
 - Strongly cooperate with other projects and initiatives relevant for the Mediterranean
 - Create critical mass to exploit the available resources and build consensus.

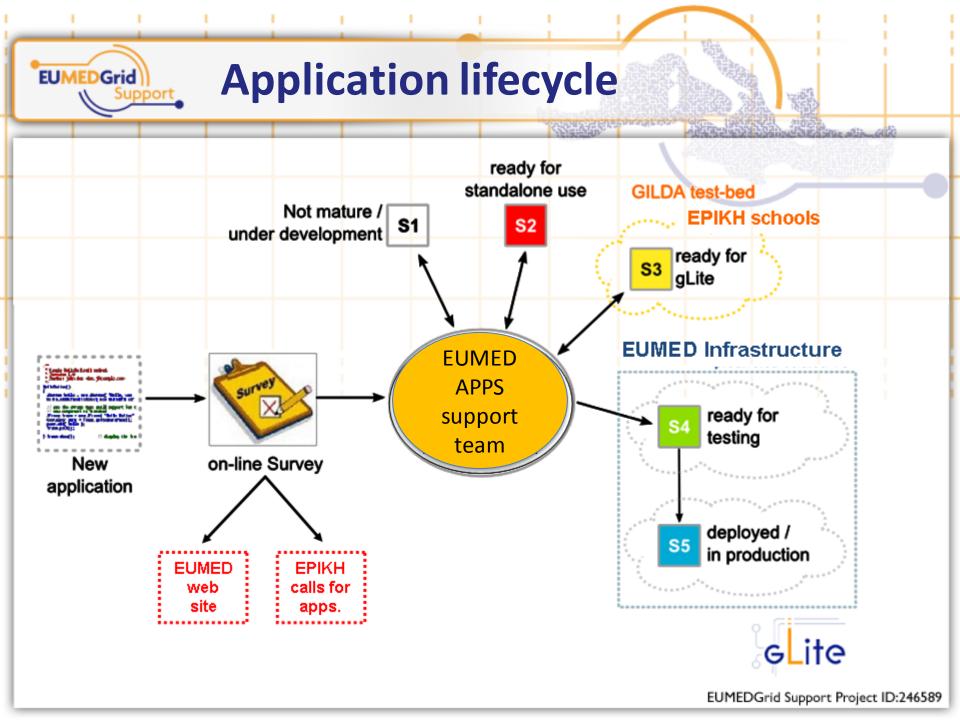

User Support and ROC

- User support will be provided by a 2 levels support structure:
 - First level, local support to users

- Second level centralized support
- Extensive training will be provided to site administrators
 - Enabling new resources for local support
- An EUMED/African Regional Operation Centre (ROC) will spin off during the project
- Initial support and training on ROC procedures and tools provided by the IGI ROC (Italian Grid Infrastructure)

High Level Policy Dissemination

- 3rd EUMED Event in Brussels 31st March 2010
- Organised in cooperation with EUMEDCONNECT2 and GEANT3.
- Participation of stakeholders and policy makers of the Mediterranean Countries.
- Dr. Talal Abu-Ghazaleh, Chair of the Global Alliance for ICT and Development (GAID) of the United Nations announced the launch of the Arab States Research and Education Network (ASREN)
- Next one in 2011

Events

- Workshops targeting relevant scientific domains.
 - Rome 25-27 October 2010 "Environmental Radioactivity: New Frontiers and Developments"
 - Lebanon Universite Saint-Joseph in Beyrouth May/June 2011 "Health and Physics"
 - ICTP Trieste November 2011 "Climate Change" (in cooperation with EU-IndiaGrid2).
 - And others...

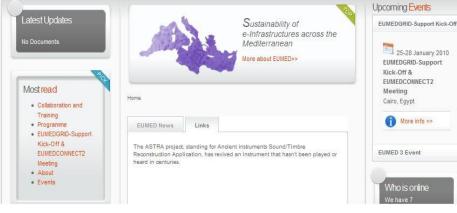

- Grid schools in cooperation with the EPIKH project (applications can be submitted at www.epikh.eu):
 - Algiers 28 June 15 July 2010
 - Cairo October November 2010

EUMEDGrid

EUMEDGrid CHAIN Objectives

- Define a strategy and a model for external collaboration, in close collaboration with EGI.org, which will enable operational and organisation interfacing of EGI and external eInfrastructures.
- Validate this model, as a proof-of-principle, by supporting the extension and consolidation of worldwide Virtual Research Communities.
- Explore and propose concrete steps forward towards the coordination with other projects and initiatives (e.g. EGI.eu, EUMEDGRID-Support, EUIndiaGrid2, LinkSCEEM, National Knowledge Network, CNGrid, etc.).

Status & Partners

- Support Action (FP7-RI 260011)
- Start Date: 1 December 2010
- EC contribution of 1.1 M€ on a total cost of 1.9 M€
- Partners:

- INFN (Italy Coordinator)
- CIEMAT (Spain)
- GRNET (Greece)
- CESNET (Czech Rep.)
- IHEP (China)
- UBUNTUNET (Africa)
- CLARA (Latin America)
- PSA (India)
- ASREN (Mediterranean) Represented by INFN
- Asia-Pacific area Represented by INFN
