In the air in the workshop

- **Interesting new themes/approaches**
  - Who are the users and how to "find" them?
  - Governance and legal issues of e-Infrastructure?
  - Sustainability & holistic cost/benefit/trust analysis
  - Creating services for the communities

- **Familiar, but gaining momentum**
  - Data: curation, open/closed, best practices
  - Global collaboration aspects

- **Themes making a return**
  - "Bridges vs. common operational models" - return of the importance of standardisation
  - Domain specific vs. general and local vs. global, shared e-Infrastructures

Welcome to the next e-IRG Workshop

- The next e-IRG Workshop will be in Sweden during 2H/2009.
- Please reply to the questionnaire to get your input for the next workshop(s).
