Usage Policies

Usage Policies

- Draft AUP from whitepaper
- Aim to facilitate VOs and resource centers joining with broadly acceptable set of rules
- General aim seemed to be OK
  - keep it simple
  - don't try to be perfect

Usage Policies

- Definitions – User, VO, Institute [resource provider]
- AUP already covered? [no]
- Legal status of VOs
- Unacceptable use list required?
  - Examples of important misuse
  - Qualify unacceptable use with "unacceptable"

Usage Policies

- Lighten up on commercial use (in future?)
  - Diverse rules between networks, sites
  - How to enforce rule diversity
- Probably AUP not needed if AAI becomes widespread
