

e-IRG Workshop on e-Infrastructures for Climate Change and Digital Transitions

Session III: Going beyond: How policies can shape the development of research infrastructure facilitating data sovereignty, innovation and cultural change

26. May 2021, 14:00 - 16:30 CET

organised within the framework of the Portuguese Presidency of the Council of the European Union by e-IRG and the e-IRG secretariat, with the support of the Portuguese Foundation for National Scientific Computation (FCCN) which is a unit of the Foundation for Science and Technology (FCT).

Housekeeping

- This **webinar will be recorded**, and the recording will be made accessible on the e-IRG webpage
- Please **do not activate your microphone and video** unless the host gives you permission
- The moderator will **keep the timing strict**
- Use the **Chat for questions** which will then brought forward to the moderator
- Please make use of the **survey for feedback** on agenda page
- e-IRG is happy receiving **comments via email to the e-IRG secretariat**

Vision: **facilitate integration in the area of European e-Infrastructures and connected services**, within and between member states, at the European level and globally.

Mission: support a/ **coherent, innovative and strategic European e-Infrastructure policymaking** and b/ **development of convergent and sustainable e-Infrastructure services**.

e-Infrastructure Commons

e-Infrastructure Commons is the political, technological, and administrative framework for an easy and cost-effective shared use of distributed electronic resources across Europe.

e-IRG outlines Europe's need for a single "e-Infrastructure Commons" for knowledge, innovation and science [e-IRG Roadmap, 2012]

e-IRG stresses the need for e-Infrastructure coordination at the national level and strong national building blocks, enabling coherent and efficient participation in European efforts [e-IRG Roadmap, 2016]

Role of National Nodes, in the implementation of the e-Infrastructure Commons and its instantiation as the European Open Science Cloud [National Nodes, 2019]

e-Infrastructures for Climate Change and Digital Transitions

Programm Committee

- João Pagaime (PT, Chair)
- Elana Araújo (PT)
- Gabriele von Voigt (DE)
- Andrea Herdegen (DE)
- Panos Agyrakis (GR)
- Ivan Maric (HR)
- Paolo Budroni (AT)
- Stefan Hanslik (AT)
- Peter Sterle (SL)
- Jan Wiebelitz (support programme)
- Fotis Karayannis (support programme)
- Michael Maragakis (support programme)
- Naomi Messing (support programme)

Session I: **EOSC and data interoperability**

Session II: **Addressing climate change – the digital aspects**

Session III: **Going beyond: How can policies shape the development of research infrastructures facilitating data sovereignty, innovation and cultural change**

e-IRG Workshop

Session III:

Going beyond: How can policies
shape the development of research
infrastructures facilitating data
sovereignty, innovation and cultural
change

Moderator:

- **Konstantinos Repanas** (EC, DG Research & Innovation Unit A.4 – Open Science)

Speakers:

- **George Strawn** (US National Academy of Sciences)
- **József Györkös** (University of Maribor)
- **Franciska de Jong** (CLARIN ERIC)

What's next

- **ICRI2021**, 1.-3. June
- **EMODnet Open Conference**, 14.-18. June
- **EOSC Symposium 2021**, 15.-18. June
- **TNC21**, 21.-25. June
- **LIBER 50th Annual Conference**, 23.-25. June

- Sildes are available on the indico agenda page,
- Recordings will be published on the e-IRG web pages
- Further questions and comments via email to secretariat@e-irg.eu
- Feedback through SurveyMonkey (see link in the Chat)

- <http://e-irg.eu> subscribe to the e-IRG mailing list
-  @eirgeu

Acknowledgement

The e-IRG Workshop is organised within the framework of the Portuguese Presidency of the Council of the European Union by e-IRG and the e-IRG secretariat, with the support of the Portuguese Foundation for National Scientific Computation (FCCN), which is a Unit of the Foundation for Science and Technology (FCT).

The e-IRG Support Programme e-IRGSP6 has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 823761
