Vision: **facilitate integration in the area of European e-Infrastructures and connected services**, within and between member states, at the European level and globally.

Mission: support a/ **coherent, innovative and strategic European e-Infrastructure policymaking** and b/ **development of convergent and sustainable e-Infrastructure services**.

e-Infrastructure Commons

e-Infrastructure Commons is the political, technological, and administrative framework for an easy and cost-effective shared use of distributed electronic resources across Europe.

e-IRG outlines Europe's need for a single "e-Infrastructure Commons" for knowledge, innovation and science [e-IRG Roadmap, 2012]

e-IRG stresses the need for e-Infrastructure coordination at the national level and strong national building blocks, enabling coherent and efficient participation in European efforts [e-IRG Roadmap, 2016]

Role of National Nodes, in the implementation of the e-Infrastructure Commons and its instantiation as the European Open Science Cloud [National Nodes, 2019]

e-IRG White Paper 2021

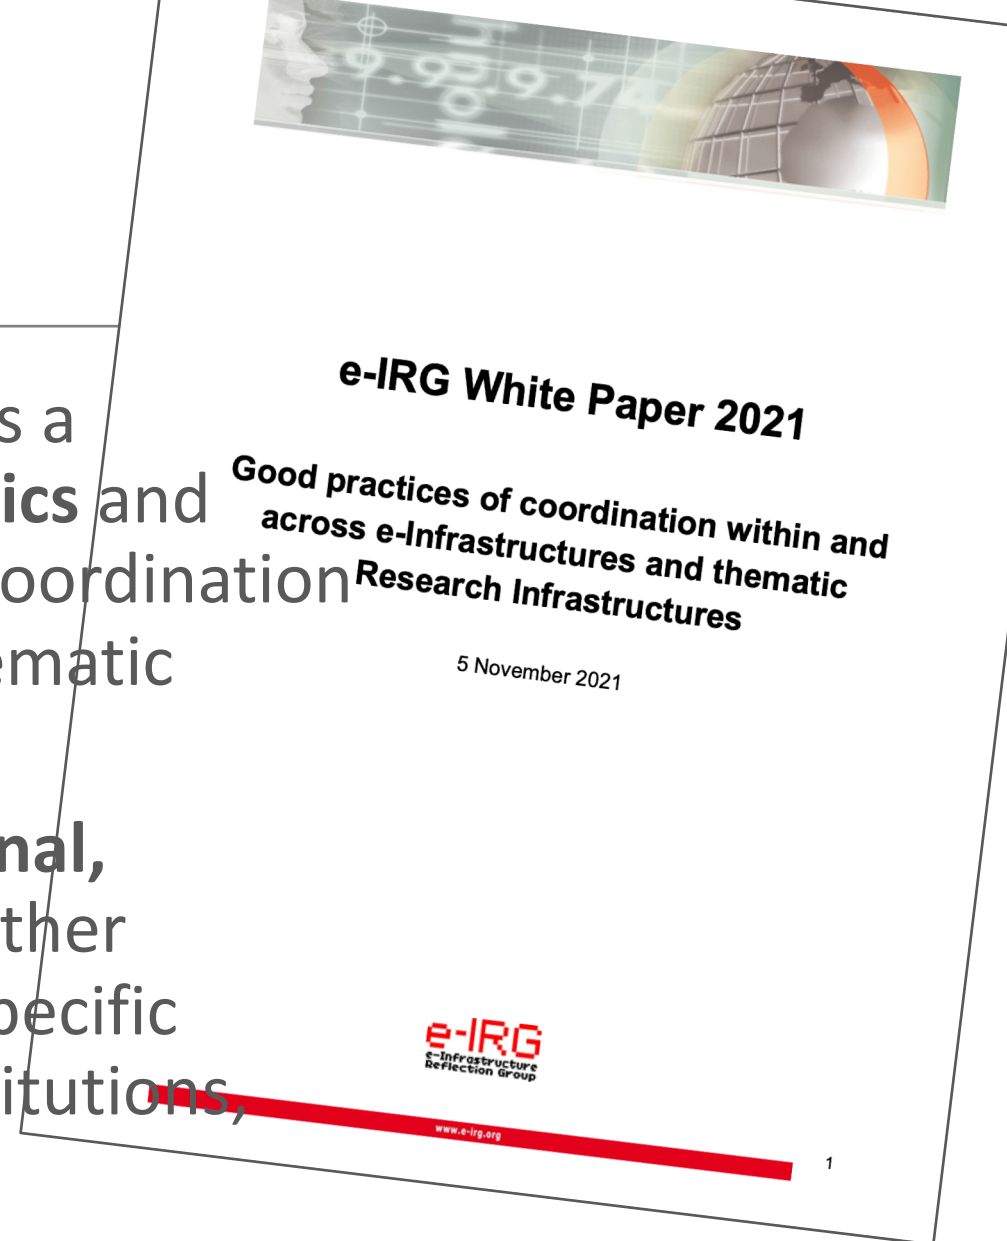

- Title: *Good practices of coordination within and across e-Infrastructures and thematic RIs*
- Follows-up the work from the e-IRG National Nodes document
- **Coordination is continuously needed at national level among all players**
 - Both among generic (horizontal) e-Infrastructure providers
 - Across generic (horizontal) and thematic (vertical) RI providers
- **Coordination should be expanded within and across countries**
 - At *institutional level*
 - At *regional level*
 - At *EU level* (already treated at multiple fora, but only within an area, e.g. GEANT, EOSC, EuroHPC)
- **Coordination across areas (networking, computing, data) is part of the 2nd topic of the White Paper (to be worked out in 2022)**

e-IRG White Paper 2021

- The e-IRG White Paper 2021 is envisaged as a **collection of separate but interrelated topics** and starts with the area of “Good practices of coordination within and across e-Infrastructures and thematic Research Infrastructures”.
- It **presents a set of paradigms at institutional, national, and regional level**, showcasing either integral and holistic views or highlighting specific aspects, which may be useful for other institutions, countries, or regions.
