

# The EOSC Observatory

## e-IRG Workshop under French EU Presidency on 30 May 2022

Gareth O'Neill (Technopolis Group)

The EOSC Future project is co-funded by the  
European Union Horizon Programme call  
INFRAEOSC-03-2020, Grant Agreement 101017536

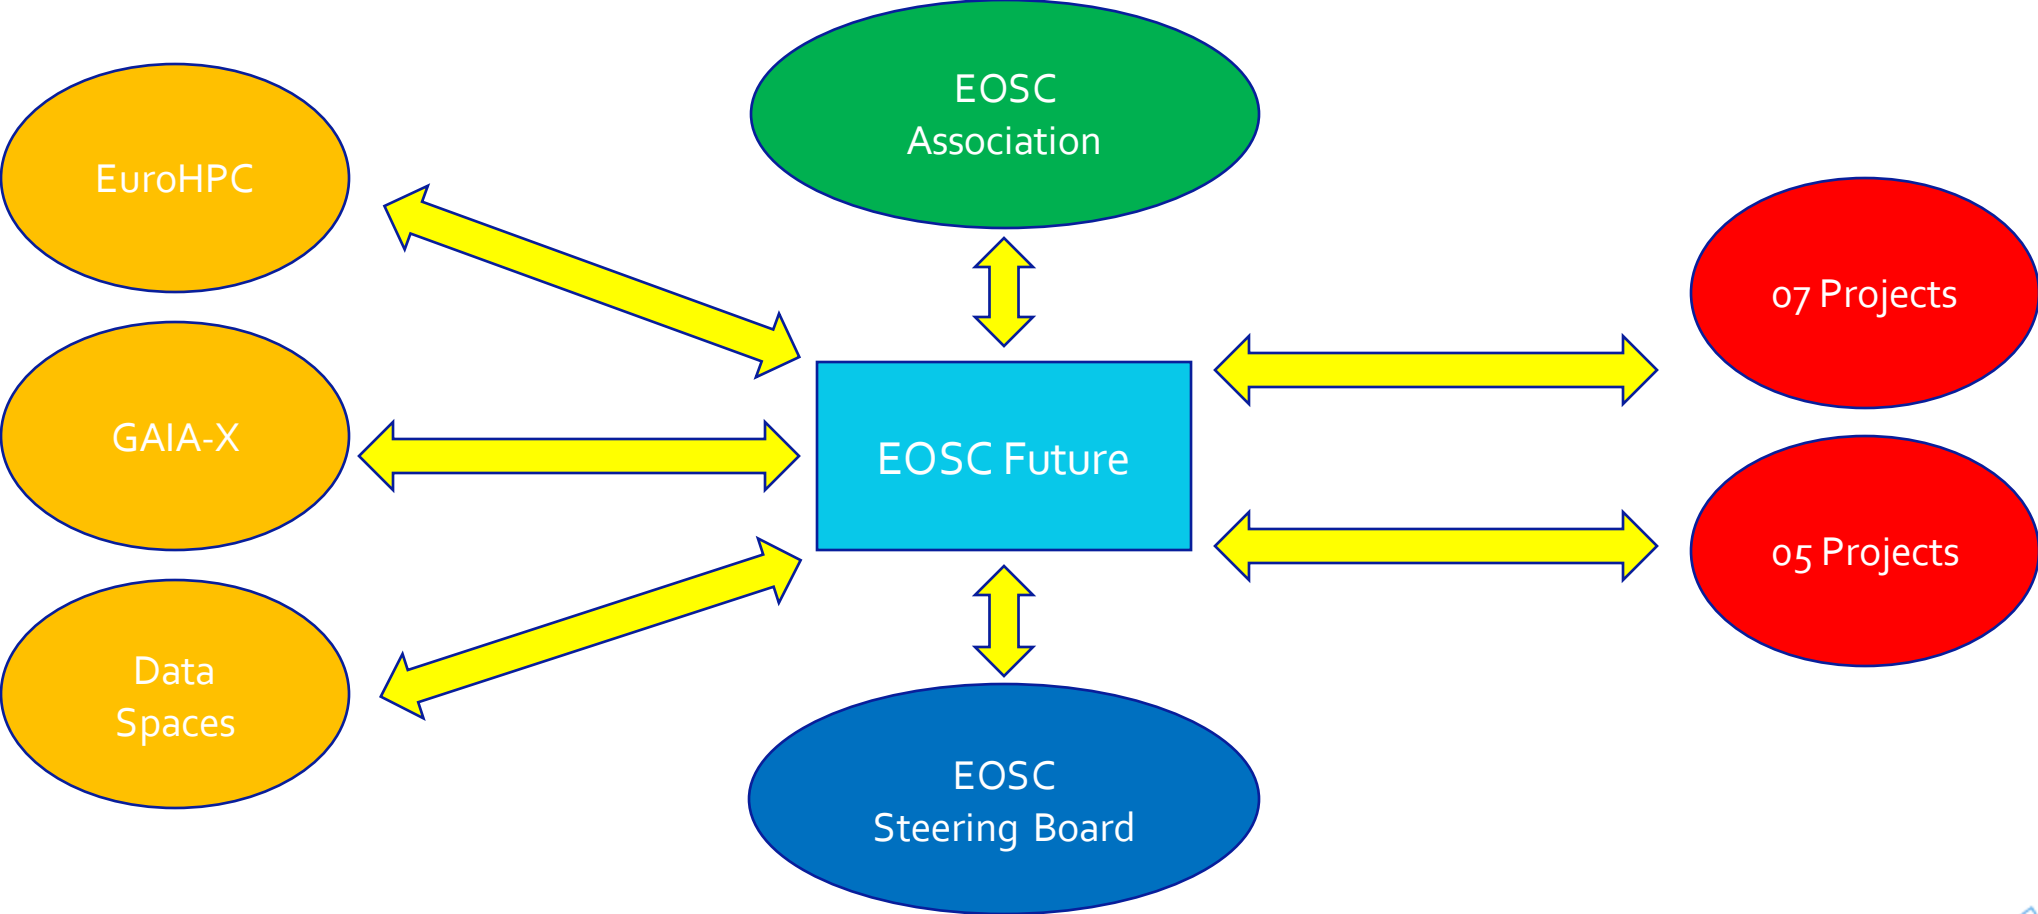

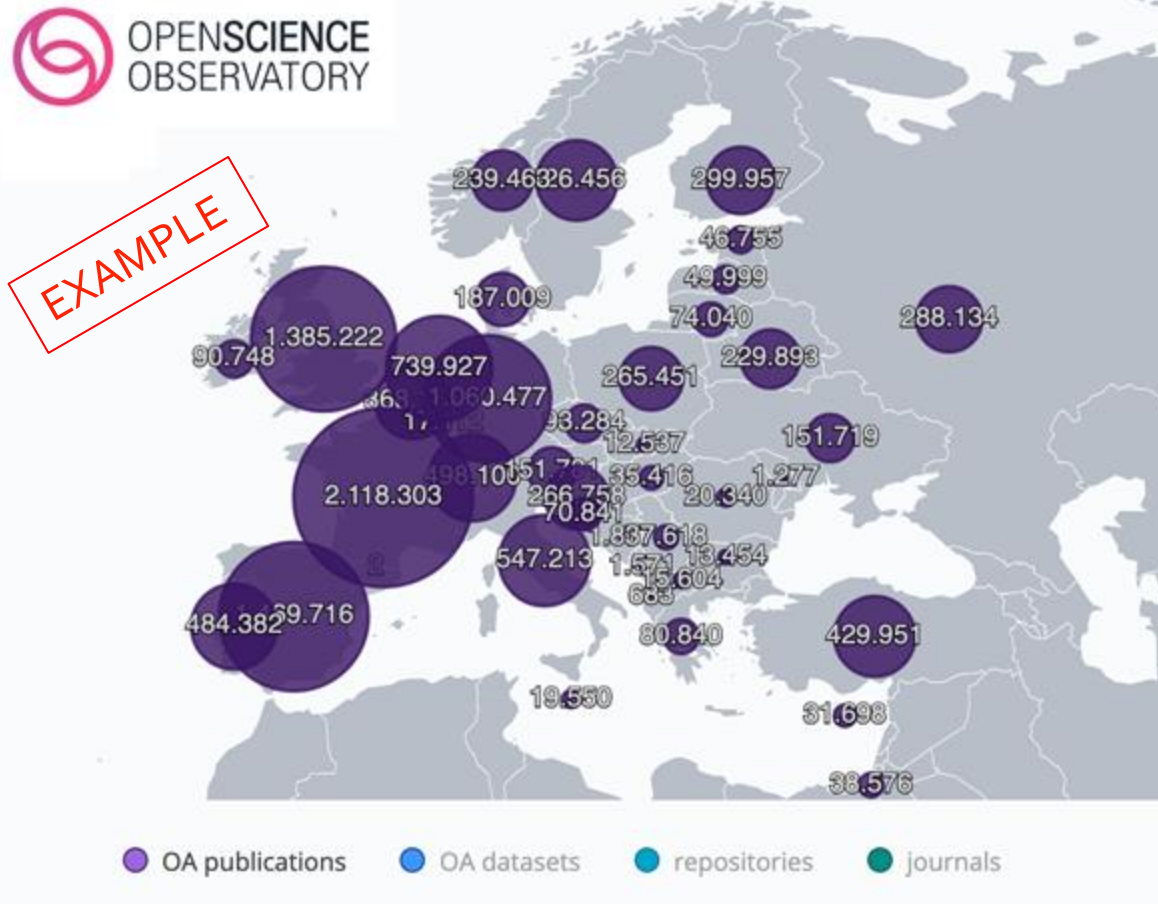

# EOSC Future

- Horizon 2020 INFRAEOSC-03-2020: Integration and consolidation of the existing pan-European access mechanism to public research infrastructures and commercial services through the EOSC Portal
- EOSC Future will integrate, consolidate, and connect existing e-infrastructures, research communities, and initiatives in Open Science to further develop the EOSC Portal, EOSC-Core, and EOSC-Exchange of the European Open Science Cloud (EOSC)
- EOSC Future will take a user-driven co-designed approach and strategically align with key stakeholders in the EOSC ecosystem

# EOSC Alignment

# Policy Intelligence

- Interactive dashboard for monitoring EOSC readiness of EU MS/AC and activities and in-kind contributions to EOSC Partnership
- Track policies, infrastructure, data, and services for EOSC
- Engage and support key stakeholders in EOSC

# Existing Initiatives

- Build on recommendations of EOSC Executive Board Working Group Landscape
- Build on EOSC readiness work of INFRAEOSC-05 Task Force Landscaping
- Build on monitoring needs of EOSC-A and EOSC-SB

# Thematic Layers

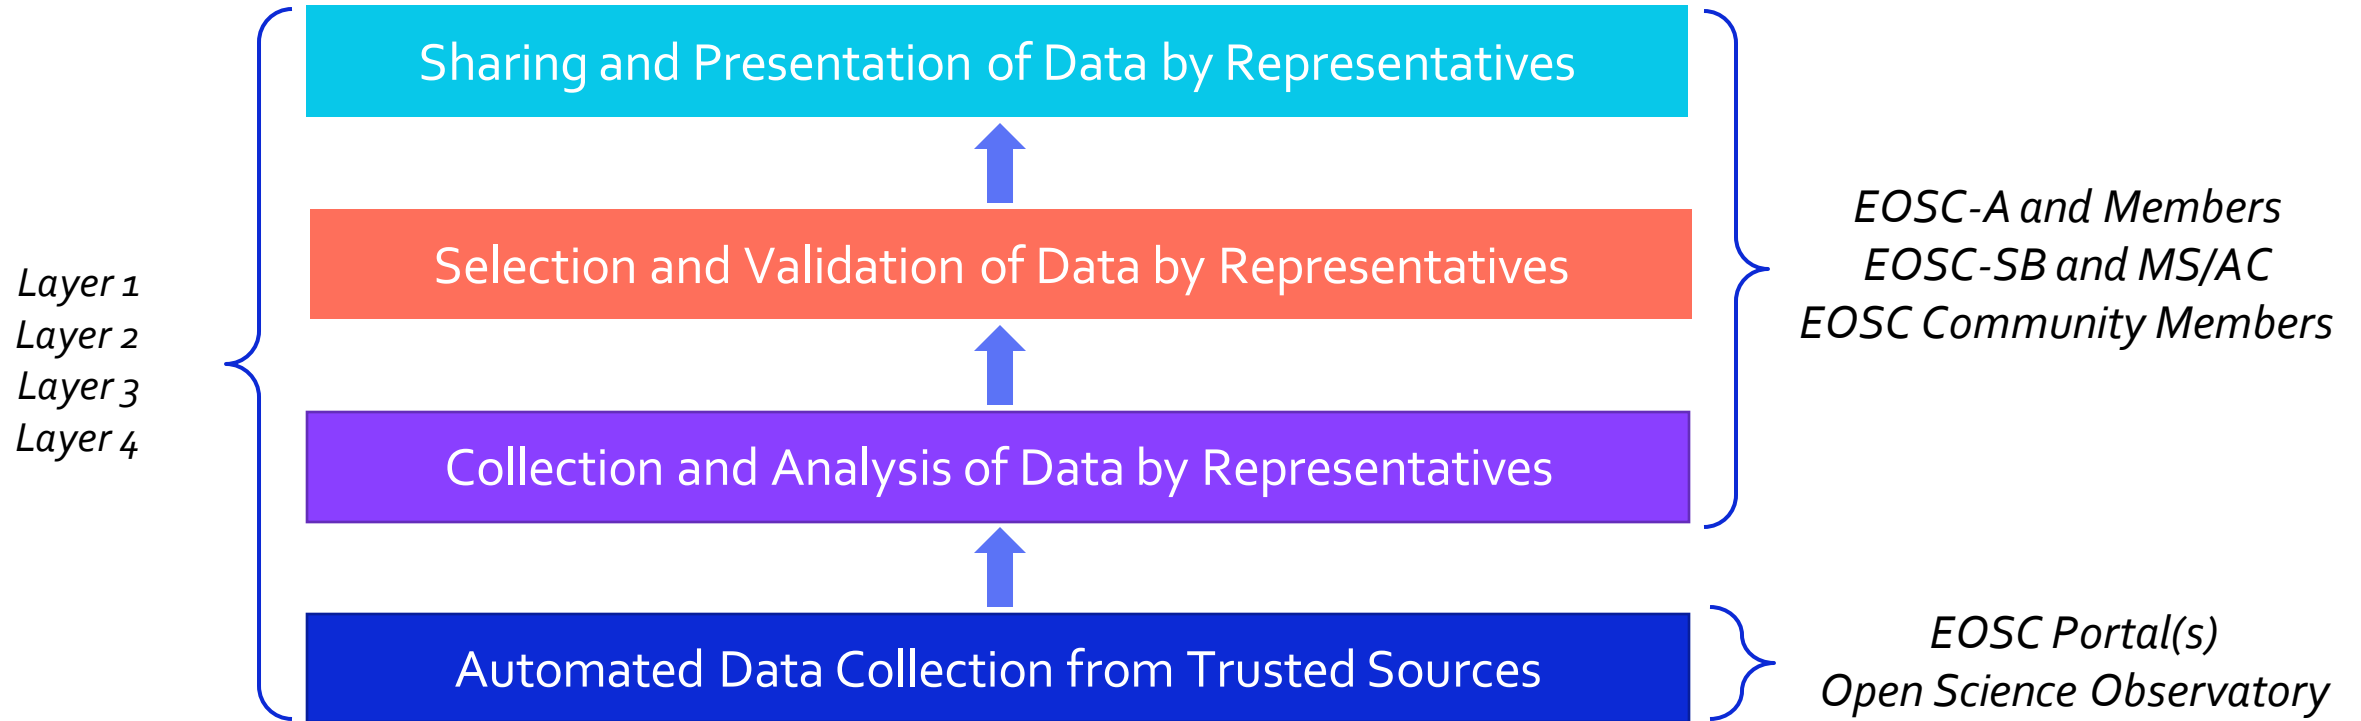

**Figure:**  
Four Layers of Data to be Collected by EOSC Observatory to Support EOSC Monitoring

**Data:**  
The aim is to collect data where available automatically from trusted data sources and where not available manually from assigned representatives via targeted surveys. Quantitative data will be provided with qualitative descriptions that further frame and explain the collected numeric data

- Legend:**
- Layer 1: Validated by EOSC-SB and MS/AC
  - Layer 2: Validated by EOSC-A and Members
  - Layer 3: Validated by EOSC-A and Members
  - Layer 4: Shared by the EOSC Community

My Surveys

My Group

## Welcome to the survey tool of the EOOSC Observatory

This is a tool that is being developed by the EOOSC Future project to support the EOOSC Steering Board and EOOSC Association in their monitoring of activities contributing to EOOSC. Annual surveys will be conducted via this survey tool that are aimed at representatives of European Member States and Associated Countries (MS/AC) in the EOOSC Steering Board and member organisations in the EOOSC Association. The EOOSC Steering Board surveys will focus on the monitoring of national policies and investments for EOOSC and their impact on EOOSC readiness. The EOOSC Association surveys will focus on the monitoring of financial and in-kind activities that contribute to the development of EOOSC and implementation of the EOOSC Partnership. All current and past surveys and responses will be available on this private survey tool homepage.

## National Contributions to EOOSC

Please note that your submitted responses will first be made available in the internal private survey dashboard of the EOOSC Observatory. Your responses will only be published online after you have selected which responses can be made public and when the public webpage of the EOOSC Observatory is operational.

Submit

### Sections

EOOSC policies and financial investments

EOOSC practices

### 1. Are there EOOSC-relevant policies in place at national or regional level? (Multiple choice):

1. "Policy" can be understood here in a wider sense, e.g., also recommendations, regulations, laws can be considered as a policy
2. At national / regional level should be understood as being applicable to all RPOs/RFOs at this level.

There are one or more policies relevant for the EOOSC in place

Policy most relevant for EOOSC in place since:

05-01-2022

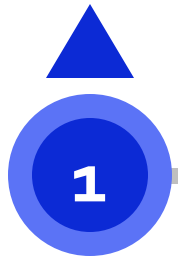

Latest update of the policy most relevant for EOOSC:

19-01-2022
