Empowering the e-Infrastructure partnerships in ERA

e-IRG Webinar II
26th May 2020 (10:00 - 12:00 CET)

Liina Munari, Deputy Head of Unit
DG CNECT C.1 European Commission
Luxembourg
Quo vadis, EOSC?
What do we want to achieve?

• Reduce the fragmentation of research information, harmonise access policies, links for eliminating silos and enhancing the circulation of knowledge in digital form

• Ecosystem of research data and related services, covering the whole data life cycle, from discovery and mining to storage, management, analysis and re-use

• New scale of cross-disciplinary and collaborative research that addresses major societal challenges and accelerates Europe’s transition to open science

• Capitalise on initial efforts in 2018-2020 to federate existing and emerging research data infrastructures and initiatives, drive the progressive implementation of a “Web of FAIR data” supporting across the whole of Europe the transition to a more effective research
European partnerships in Horizon Europe

• Horizon Europe will support European partnerships with EU countries, the private sector, foundations and other stakeholders. *The aim is to deliver on global challenges and industrial modernisation through concerted research and innovation efforts.*

• The Horizon Europe proposal lays down the conditions and principles for establishing European Partnerships. 3 types are proposed:
  
  • Co-programmed European Partnerships
  • Co-funded European Partnerships using a programme co-fund action
  • Institutionalised European Partnerships

• These partnerships will only be implemented where other parts of the Horizon Europe programme would not achieve the objectives desired or expected impacts
Horizon Europe – regulation (proposal)
ANNEX III : PARTNERSHIPS

• Selection criteria

  • Evidence that the European Partnership is more effective in achieving the related objectives of the Programme
  • Coherence and synergies of the European Partnership within the EU research and innovation landscape
  • Transparency and openness (priorities and objectives, partners and stakeholders)
  • Additionality and directionality (outcomes, deliverables and impacts; leverage effects; flexibility; exit/phasing-out)
  • Partners’ long term commitment

• Other criteria on implementation / monitoring / evaluation, phasing-out and renewal
Forthcoming timelines:

- Setting up the **European Partnership** for EOSC (draft published end of May)
- **Legal entity** « EOSC Association » (statutes signed in June)
- **Strategic Research and Innovation Agenda (SRIA)** (Open consultation July-September)
- Sustainability WG report « **Iron Lady** » (consultation July-September)
- EOSC Association becomes operational & Iron Lady report is finalized (October)
Thank you
