

## The future of e-Infrastructures and e-IRG

Position statement - EGI Federation

Tiziana Ferrari Director, EGI Foundation

21-06-2023

e-IRG Workshop

TLP: WHITE Public

## Vision

e-Infrastructures are the integrated and open fabric that at European level supports Research Infrastructures & Collaborations to provide data and adding-value services to the ERA

e-Infrastructure Forum - the contact point

# e-IRG

The advisory body supporting e-Infrastructures on policy matters offering a contact points with member states

# **EOSC**

The framework for cross-infrastructure cooperation, coordination and research & innovation actions involving e-Infrastructures and Research Infrastructures

### EGI and Research Infrastructures

Research Infrastructures and research communities are our essential partners and the largest adopters of EGI solutions.

26

ESFRI Research Infrastructures collaborate with EGI 64

Research Infrastructures use the EGI services 4\*

Research
Infrastructures are
members of the
EGI Federation

\*CERN, EISCAT Association, EMSO ERIC and SeaDataNet are EGI Federation members directly represented at the EGI Council

#### **Environment**

EISCAT\_3D EMSO ERIC Euro-Argo ERIC LifeWatch ERIC

#### **Health & Food**

BBMRI, EATRIS, ECRIN, ELIXIR, EMBRC ERIC, EMPHASIS, ERINHA, EU-OPENSCREEN ERIC, Euro-Bioimaging ERIC, INFRAFRONTIER, INSTRUCT ERIC, ISBE, METROFOOD-RI, MIRRI

### Social & Cultural innovation

CLARIN ERIC DARIAH E-RIHS OPERAS

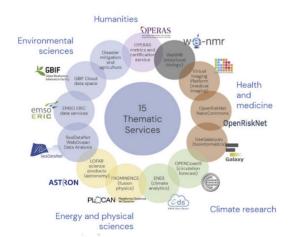

### Physical sciences & Engineering

CTA HL-LHC KM3NeT 2.0 SKAO

ESFRI Research Infrastructures supported by EGI

17 Thematic Services from the consortium

Policy making and Multidisciplinary Life Sciences &AiiDA ab DDQ Pecket Cos4Cloud RATICONF (%) grapevine MATRYCS (INFN PLOCAN Paraturus Condinion PANGEO

**36** Thematic **Services** from external communities

**EGI-ACE** has implemented the **Compute** Platform of the European Open Science Cloud and contributed to EOSC Data Commons with integrated computing, platforms, data spaces and tools aligned with major European cloud federation projects and HPC initiatives.
